CAREER OBJECTIVE

As a dedicated software developer in Java and React domain, I seek a challenging role in a dynamic organization where I can leverage my technical skills to contribute to innovative projects. I aim to develop scalable and efficient software solutions while continuing to grow professionally through continuous learning and collaboration with a talented team.

EDUCATION

Bachelor of Technology

MLR Institute of Technology
Computer Science
7.67 CGPA

2018 – present
Hyderabad, India

Intermediate,MPC

NARAYANA Junior college
96% aggregate

2016 – 2018
Hyderabad, India

Secondary Education

Sri Sai Chaitanya Techno School
8.7 CGPA

2015 – 2016
Hyderabad, India

PROFESSIONAL EXPERIENCE

Digital Specialist Engineer - Infosys

07/2022 – present
Hyderabad, India

Java Full Stack Engineer(intern) - Zemoso Technologies

01/2022 – 07/2022
Hyderabad, India

PROJECTS

Quantum Application

04/2024 – present

I contributed to the development of the Quantum application for BNSF Railways, a critical tool designed to enhance shipping unit tracking. As a Software Developer, I focused on backend development using Java and Spring Boot, integrating real-time event processing through Kafka. I also developed the frontend using React to provide users with up-to-date tracking information. By leveraging my skills in data management and working collaboratively with cross-functional teams, I helped deliver a solution that improved operational efficiency and customer satisfaction by providing accurate and timely shipping unit tracking.

As a key member of the development team, I contributed to the creation and enhancement of the Cyber Central application, a critical tool for managing and responding to cyber threats. The project involved designing, developing, and deploying a comprehensive platform to efficiently handle security alerts and incidents. My responsibilities included backend development using Java and Spring Boot, frontend development with React, and integrating advanced security tools like AppSentinels, VMray, and GenAI. Through collaborative efforts with the team, we successfully developed a solution that significantly improved the organization's ability to detect, analyze, and respond to cyber threats, enhancing overall security posture.

Blinkist web App

online books app

TECHNICAL SKILLS

problem solving

Data Structures and Algorithms

Java

Springboot

Python

MySQL

DBMS

React

Javascript

Kafka

Git

Linux/Unix

Jenkins

Docker

REST API & Hibernate

Unit Testing(Junit, Spock, Mockito)

CERTIFICATES

Course Completion Certificate by PIRPLE

"Frontend Fundamentals" using
HTML and CSS.

Certification of Project completion by Codegnan

Build "Voice Assistance
Application" using Python.

GitHub Foundations

ORGANIZATIONS

SCOPE(School of Programming and Excellence)

Technical Mentor

Organized an Event named "**GameHub**" on Game Development.

INTERESTS

- Volunteering
- Exploring technologies
- Reading Tech Blogs and Books
- Building Side Projects
- Gaming

SOFT SKILLS

Team Work

Communication skills

Adaptability

Time Management
